The Russell 2000® Growth Index is constructed to provide a comprehensive and unbiased barometer for the small-cap growth segment. The Index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set and that the represented companies continue to reflect growth characteristics. The Russell 2000® Growth Index (the "Index") is presented for illustration purposes only for the convenience of the reader. The Index is not actively managed nor can you invest in the Index. The holdings of the Ranger Small Cap Fund differ significantly from the securities represented in the Index. Accordingly, comparing or contrasting the results of the Ranger Small Cap Fund to the results of the Index may be of limited use.

An "industry" is a major grouping of sectors that share common operating characteristics based on their principal business.
